Slow Computer

Technical Investigative Services can log into your computer remotely through an internet connection and fix many problems you currently may be experiencing. For a reasonable monthly flat fee ***you can contact us as many times as needed*** to check out any issues on your computer. Using the Technical Investigative Services support portal website at: <http://www.techinvserv.info> you can find the instructions on how to set up the program and create a support ticket to initiate the process.

Features

- **Unlimited remote repair of viruses, malware, adware etc.**
- **Remote program installation, program repair, any computer issues, etc.**
- **Two check-up's per year for general computer health.**
- **Theft security (Assist in locating your portable computer if stolen)**

Why Technical Investigative Services ?

We are retired Law Enforcement personnel with experience in the computer forensics and computer related crimes. Keep your computer safe from internet predators. Contact us today for references.

TECHNICAL INVESTIGATIVE SERVICES WILL NOT LOG IN TO YOUR COMPUTER WITHOUT YOUR PERMISSION AND APPROVAL. EVERY LOGIN SESSION DISPLAYS A POPUP WINDOW TO THE USER TO INDICATE A REMOTE SESSION IS ACTIVE. THIS IS NOT A STEALTH OR INVISIBLE REMOTE ACCESS PROGRAM.
